NKOSITHANDILEB SOLAR

Off-grid type folding containers for oil refineries

Overview

Why should you choose a container manufacturing solution for oil & gas?

Our container solutions for the Oil & Gas industry are designed to withstand forces other containers cannot. In the dynamic world of oil and gas exploration, offshore operations present unique challenges. Our offshore container manufacturing solutions provide the necessary infrastructure to support critical functions in this demanding environment.

What types of offshore units does MFC concepts supply?

MFC Concepts supplies a variety of offshore units including workshops, laboratories, equipment rooms, accommodation, offices, control rooms, offshore diving chambers, cargo baskets, chemical tanks, mini dry containers, dry containers, offshore reefers, caged reefers, chiller containers, open-top containers, skips and half-height containers.

Why should you choose MFC offshore containers?

Demand for offshore containers has steadily grown within the Oil and Gas sector. Offshore containers are built to last, even in extreme conditions. MFC has developed an international reputation for providing quality, safe, and cost-effective solutions to the Oil/Gas, marine, and shipbuilding industries.

What is a reefer container?

Our reefer containers provide temperature-controlled storage solutions, ensuring the integrity and freshness of perishable goods during offshore transportation and storage. These standard containers offer secure and weather-resistant storage for a wide range of equipment, supplies, and materials needed in offshore operations.
