**1 2 kw solar inverter factory in
Puerto-Rico**

Overview

Where will solar panels be made in Puerto Rico?

Now Great Lakes Solx PR, a minority-owned solar panel manufacturing company, has announced it plans to establish the first solar panel manufacturing facility in Puerto Rico. The factory will be located on the 65-acre Hewlett Packard Campus in Aguadilla, which is in the northwest part of the island near the tourist haven of Rincon.

Will solx be able to build a solar panel factory in Puerto Rico?

Solx has signed a 10-year lease with potential extensions on the 150,000-ft 2 building on HP's 65-acre campus. The company is investing \$20 million into the facility to get it ready for panel manufacturing. Siting a panel manufacturer in Puerto Rico was always the goal for Solx.

Will a contract solar panel assembly facility open in Puerto Rico?

A contract solar panel assembly facility will soon open in Aguadilla, Puerto Rico, that will supply the utility-scale market on the island and hopefully the greater market on the U.S. mainland. Aguadilla, Puerto Rico. Credit: U.S. Corps of Engineers.

Why should you invest in solar panels in Puerto Rico?

“Puerto Rico offers an ideal location and talent pool for solar panel manufacturing. This new facility will provide affordable solar panels to help the increasing demand for clean energy in the region. The investment will spur economic growth and job creation, helping at the same time to build a sustainable future for Puerto Rico.
