# **100ah power station in China in Egypt**

## Overview

---

What is powerchina's largest offshore wind power project?

On , POWERCHINA signed an EPC (engineering, procurement and construction) contract for the 1,100-Megawatt Suez Gulf Wind Power Project with Suez Wind Energy Co. This marks the successful launch of POWERCHINA's largest overseas onshore wind power project, the largest of its kind in Egypt, and the second-largest in Africa.

Where is powerchina located?

Located near Ras Ghareb and Ras Shokeir in Egypt's Red Sea Governorate, the project has a total installed capacity of 1,100 MW. POWERCHINA is responsible for the design, procurement, construction, commissioning, handover, and warranty services for the entire project.

What does powerchina do?

POWERCHINA is responsible for the design, procurement, construction, commissioning, handover, and warranty services for the entire project. The project is expected to generate over 4.3 billion kilowatt-hours of electricity annually, providing clean, stable energy to over one million local households.
