102 MW of solar energy

Overview

Did Cee group buy a 102 MW solar project?

In July, CEE Group also announced the acquisition of a 102.5 MW solar PV project in San Pedro del Pinatar in Murcia, a region in southern Spain, with its CEE Renewable Fund. CEE Group, a Hamburg-based renewable energy asset management firm, announced the acquisition of the 102 MW Klüden solar project.

How much solar power does Greece have in 2024?

Greece installed 2.6 GW of solar in 2024, bringing its cumulative solar capacity to 9.6 GW. This content is protected by copyright and may not be reused. If you want to cooperate with us and would like to reuse some of our content, please contact: editors@pv-magazine.com.

How many solar project acquisitions were made in 9m 2024?

According to Mercom's 9M and Q3 2024 Solar Funding and M&A report, 166 project acquisitions totaling 28.3 GW were transacted in 9M 2024 compared to the same number of project acquisitions totaling 31.6 GW in 9M 2023.

How many solar projects are there in Europe?

Currently, the company has 57 solar projects with an installed capacity of 1.5 GWp and 47 onshore wind projects with 667 MW in Europe.
