180kw power ups uninterruptible power supply

48V 100Ah

Overview

The front access Graphic Display & Control interface brings all measured parameter, UPS & Battery current states and Alarms. Through the interface, users can easily monitor status and configure settings.

In the front of the UPS, there are control interface (LCD Panel) and door lock. Inside the cabinet, there are an STS Module and 1 ~ 10 Power Module slots. Fig. 1 Modular UPS overview Fig. 2 30U Modular UPS Dimension Fig. 3 Modular UPS Front Panel Fig. 4 Modular UPS Rear Panel Fig. 5 Modular UPS Breaker.

The 30 kVA / 60 kVA Power Module has independent hardware and controllability, able to operate and coordinate with other modules within the system. See: MPS30K 3 phase modular ups system hot swappable power module 30kw MPS60K 3 phase modular ups redundant hot swappable power module 60kw

What is mps180k data center 180 kVA modular UPS uninterruptible power supply?

MPS180K data center 180 kVA modular ups uninterruptible power supply combines the highest levels of reliability and the lowest total cost of ownership. Prostar Mars series online modular UPS system is non-isolated, industrial level, green UPS, adopting advanced modular power protection concept.

What is a 1000 volt UPS (uninterruptible power supply)?

1000VA UPS (Uninterruptible Power Supplies) are used for smaller power protection applications, like backup up a few computers or EPOS. This means that they can be used by homeowners, in offices or in stores. We source UPS from a wide range of UPS systems manufacturers. You can find more information here: Riello UPS Eaton UPS APC UPS.

What is a 3 phase UPS?

A highly compact, energy efficient 3-phase UPS with an integrated 480-208 volt transformer for data center, facility and industrial applications. Estimated runtimes based on battery vendor data, at typical environmental conditions,

with no electrical input and balanced PF = 0.9 output.
