

NKOSITHANDILEB SOLAR

20-foot solar-powered container for Bahrain highway

Overview

How many solar panels will APM Terminals Bahrain install?

At the end of the solar implementation project, APM Terminals Bahrain will have installed 20,000 solar photovoltaic panels capable of generating 18.5 Gigawatts of electricity per year.

Will Kbsp become Bahrain's first fully energy-sufficient seaport?

APM Terminals Bahrain, operator of Bahrain's main container gateway, Khalifa Bin Salman Port (KBSP), has officially announced the launch of a solar power project worth around \$10m, to make the port energy self-sufficient by the end of 2023, and effectively turning the facility the region's first fully energy-sufficient seaport.

Will Bahrain achieve net zero by 2060?

Bahrain has set goals to reduce the kingdom's emissions by 30% by 2035 and achieve net zero by 2060. "We are very excited to take the first major step in our decarbonisation plans, which will make Khalifa Bin Salman Port the region's first seaport to be fully powered by renewable energy.

What is Bahrain's Sea-to-air hub?

In December 2021, Bahrain launched its global sea-to-air hub, a multimodal logistics hub connecting Bahrain International Airport and KBSP, according to Bahrain's Economic Development Board.

APM Terminals Bahrain, the operator of Khalifa Bin Salman Port, has launched a new solar power project to make the port energy ...

APM Terminals Bahrain, the operator of Khalifa Bin Salman Port, has launched a new solar power project to make the port energy self-sufficient by the end of 2023.

APM Terminals Bahrain, the operator of Khalifa Bin Salman Port, has officially announced the launch of a ground-breaking solar power project worth approximately BHD3.8 million (USD 10 ...

The operator of Khalifa Bin Salman Port has announced the launch of a solar power project to make the port energy self-sufficient by the end of 2023.

The solar power project will see the terminal install 20,000 solar photovoltaic panels capable of generating 18.5 Gigawatts of electricity per year. "This renewable energy ...

APM Terminals Bahrain is dedicated to securing a reliable and sustainable source of energy while making substantial contributions to environmental conservation. The solar ...

The company is working to make Khalifa Bin Salman Port the first fully solar-powered seaport in the region by the end of 2024. The solar power project will include over ...

APM Terminals (APMT) Bahrain, which operates Khalifa Bin Salman Port, has launched a solar power project worth BHD3.8m ...

APM Terminals Bahrain, operator of Bahrain's main container gateway, Khalifa Bin Salman Port (KBSP), has officially announced the ...

As a result, in 2024, the port will become Bahrain's first major infrastructure project to become energy self-sufficient, the regions first and the world's second fully solar powered seaport. 65% ...

APM Terminals (APMT) Bahrain, which operates Khalifa Bin Salman Port, has launched a solar power project worth BHD3.8m (US\$10m), aiming to make the port energy ...

APM Terminals Bahrain, operator of Bahrain's main container gateway, Khalifa Bin Salman Port (KBSP), has officially announced the launch of a solar power project worth ...

The company is working to make Khalifa Bin Salman Port the first fully solar-powered seaport in the region by the end of 2024. The ...

By the end of the solar implementation project, APM Terminals Bahrain will have installed 20,000 solar photovoltaic panels capable of generating 18.5 gigawatts of electricity per year. This ...
