25kW French marine folding container

Overview

How does a maritime energy storage system work?

The maritime energy storage system stores energy when demand is low, and delivers it back when demand increases, enhancing the performance of the vessel's power plant. The flow of energy is controlled by ABB's dynamic Energy Storage Control System.

Who is LZY container?

LZY container specializes in foldable PV container systems, combining R&D, smart manufacturing, and global sales. Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology.

Why is EDF launching a floating offshore wind project in France?

EDF Group's CEO Bernard Fontana described the project as a key step in France's energy sovereignty and an important milestone in developing an industrial sector around floating offshore wind. He also acknowledged the crucial role played by local communities and partners in making the project possible.
