# **30kWh Indian Solar Container**

## Overview

---

How much does a 30kW Solar System cost in India?

A 30kW solar system price will vary depending on the type, installation cost, and number of solar panels used. Additional components include a battery storage system, inverter, wire, and others. On average, a 30kW solar system panel price in India is anywhere from 13,00,000 to Rs. 38,00,000 INR or more.

What are the different types of 30 kW solar system in India?

The three main types of a 30 kW solar system in India are on-grid solar systems, off-grid solar systems, and hybrid solar systems. Out of these three types, on-grid rooftop solar is the most economical option, with a payback period of ~1.5 years for a 30 kW solar system.

How much is 30 kW solar system subsidy in India?

The 30 kW solar system subsidy in India for hybrid rooftop systems is Rs. 5.40 lakh. \*Please note: The above-mentioned 30 kW solar system price list is indicative as of 27th August 2025 for the SolarSquare's Blue 4-8ft variant.

What is a 30kW Solar System?

A 30kW solar system has a one-time investment and low-cost maintenance. 30kW solar systems, which consist of panels with a lifespan of 25-30 years, also include a 25-year of performance warranty. On average, a 30kW solar system typically requires between 80-100 solar panels, each with a capacity of 360-400 watts.
