550MW of solar energy

Overview

Where is the 550MW solar PV project located in the Philippines?

Image: Vena Energy. Singapore-headquartered renewable energy producer Vena Energy has signed an investment agreement with MGen Renewable Energy for a 550MW solar PV project in the Philippines. The 550MW Bugallon solar PV project is located in Bugallon, Pangasinan, around 200km northwest of the country's capital, Manila.

Will Vena Energy and MGen jointly develop a 550MW solar PV project?

The agreement signed by representatives from both companies (above) will see Vena Energy and MGen jointly develop the project. Image: Vena Energy. Singapore-headquartered renewable energy producer Vena Energy has signed an investment agreement with MGen Renewable Energy for a 550MW solar PV project in the Philippines.

Will Singapore get 550 MW of solar in the Philippines?

Singapore's Vena Energy and MGen Renewable Energy, the renewables unit of Manila-based Meralco PowerGen Corp., have signed an investment agreement for 550 MW of solar in the Philippines. Construction is due to start later this year.

Which is the biggest solar power plant in the Philippines?

With its 550MW of DC capacity, the Project will be one of the biggest solar power plants in the Philippines. "Vena Energy is committed to accelerating the energy transition and advancing green solutions that foster sustainable growth and environmental stewardship.
