5kw sunsynk inverter for sale in Chicago

Overview

What is a sunsynk 5kW AC Ecco 6.5kwp inverter?

The SunSynk 5kW AC ECCO 6.5kWp Inverter is the next generation of super hybrid inverter with a 6500W MPPT and a rated AC output of 5kW resulting in a system that can generate sufficient energy in Winter months to offset usage and charge a connected battery. The inverter boasts additional features such as;.

Why should you choose sunsynk Ecco hybrid inverters?

SunSynk's ECCO Hybrid Inverters allow you to use solar power in a very effective way. This can be from the grid, solar, or batteries. These inverters help you take full advantage of your renewable energy system. They are flexible and help you lessen your dependency on the grid, and this contributes to a more eco-friendly world.

What is a sunsynk hybrid inverter?

Sunsynk hybrids have the API to connect to Octopus Agile & Flux to buy electricity at cheap rates and even sell back to the national grid at high rates through SEG payments. The Sunsynk 5kW ECCO hybrid Inverter is the ideal inverter for managing power flow from multiple sources such as solar, main electrical grid and generator.

How does a sunsynk inverter work?

During sunny days, it maximizes the use of solar energy, channeling excess power to charge the SunSynk batteries. On cloudy days or during peak energy demand, the inverter seamlessly switches to draw power from the batteries. This technology ensures a continuous and seamless energy supply.
