60W 20A solar panel

Overview

What is a 60W solar panel?

Its highly sensitive light source can charge your mobile power supply even under natural light or cloudy conditions. Providing a more stable output of up to 18V, the 60W solar panel is perfect for a variety of devices and applications. The solar panel is perfect for travelling or going on trips in the wilderness where portable power is needed.

What is a 20 watt solar panel?

A 20 watt solar panel, such as the Solartech SPM020P-MD, is a 20 watt solar panel with a voltage of 15 volts. The Solartech M-Series solar panel features 108 inch #18 AWG output cables and a fully sealed junction box for weather and UV protection.

Can I use an anker solar panel with an XT60 connector?

Only use solar panels between 11 to 28V and with an XT60 connector. We recommend 100W Anker Solar Panel. This product is not compatible with Anker SOLIX PS30 (or other 5V~3A USB-C panels), PS200, PS400.
