Agricultural container distribution box

Overview

Why do you need premium agricultural and produce packaging & shipping boxes?

We provide premium agricultural and produce packaging and shipping boxes to keep your products fresh, safe, and appealing. Our vast array of packaging solutions is designed to meet the unique needs of the agriculture sector, ensuring that your produce reaches its destination in optimal condition.

What is a container farm (Box Farm)?

A container farm, also known as a box farm, is a type of agricultural system where crops are grown inside a container. The crops grown in the farm in a box container are consistent in quality and freshness due to its closed environment. This eliminates the need for herbicides or pesticides as unwanted organisms are kept out. Protection from the outside environment results in 94% of crops being of marketable quality.

What are agricultural containers?

Our agricultural containers help with the transporting and storage of many different food items. Flexcon containers keep agricultural products clean, safe, and secure from the farm to the grocery store. The containers are durable and ergonomic. Upon request, we can provide containers with FDA-approved materials.

What is agriculture box?

AGRICULTURE BOX: a concentrate of new technologies to promote high yield organic farming User friendly, ergonomic, transportable. Promotes micro organism life by constantly aerating the soil. Promotes healthy soil. Increase root system and yield. Increase speed of growth. Subsurface or surface irrigation. No stagnant water. Aerates the soil.
