# **Airport uses 100-foot folding containers from Kabul**

## Overview

---

As of publication, the total number of U.S. troops ordered to Afghanistan stands at 7,000—and they'll have their work cut out for them. Kabul's airport reportedly has no wall separating it from the rest of the city.

Does Kabul have a wall?

Kabul's airport reportedly has no wall separating it from the rest of the city, and civilians have breached the airport from several directions in attempts to get a flight out. In the meantime, the Taliban have reportedly seized all routes in and out of the city, leaving the airport the only way out of the country.

Is Kabul airport still a symbol of the Taliban?

Kabul Airport at the time of the Taliban retaking the city alongside the same scene as it looks now. AFP A year after the Taliban swept across Afghanistan, Kabul Airport remains a symbol of the struggle to escape the extremist group.

Who owns Kabul airport?

From 1996 to 2001, the Islamic Emirate of Afghanistan took over the airport in Kabul. The airport saw a facelift and gradual development when the International Security Assistant Force (ISAF) took over control of it after the US invasion of Afghanistan.

Where is Kabul airport?

The airport is situated five kilometers away from the center of Kabul, surrounded by the mountains of the Hindu Kush, at an elevation of 1791m above sea level. The airport was built in 1960 by Soviet engineers with a single terminal as a gift, and it served foreign visitors coming into Afghanistan.
