Where is a solar power plant located in Bahrain?

The solar power plant will be located in the southern region of Bahrain, near Bilaj Al Jazayer, covering a total area of approximately 1.2 square km. The project will utilise the latest advancements in solar energy technologies to optimise output and efficiency.

Is Bahrain transitioning to solar energy projects?

After the establishment of the Sustainable Energy Unit (SEU) in Bahrain in 2014, a radical transition toward launching solar energy projects can clearly be observed. The SEU was established in collaboration between the national government and the United Nations Development Program (UNDP).

Is Bahrain's first solar panel company the start of a sea change?

This is good news for Solar One, Bahrain's first solar panels company. Since its founding in 2017, the startup boasts of contributing over two megawatts of solar to the country's energy mix — enough to power around 380 US homes. It's a drop in the ocean, but it hopefully marks the beginning of a sea change.
