## Overview

---

Does Brazil have 5G?

Since that date, all 5,570 towns and cities in Brazil have been approved for 5G, although actual network deployments vary among operators. Three-and-a-half years after receiving its 5G licenses, Vivo —Brazil's largest mobile operator by subscriptions—can claim the country's most extensive 5G subscription base.

Will new 5G spectrum improve the Brazilian 5G experience?

New 5G spectrum used for network deployments will help to improve the Brazilian 5G experience. Through the last spectrum auction, national operators Vivo, Claro and TIM, along with regional providers and new entrants, won spectrum in the 700 MHz, 2.3 GHz, 3.5 GHz and 26 GHz bands.

How many 5G base stations are there in the world?

In addition, a total of 819,000 5G base stations have been built by these three telecom giants, accounting for 70% of the world's total. As China has played a leading role in 5G technology, its 5G development has extraordinary significance for other countries.

Is the 4G to 5G uplift higher for Brazil?

However, the 4G to 5G uplift is higher for Brazil than it is in 41 leading 5G countries. For Video Experience, Brazil saw an increase of 19.4 points (39.1%) while the 41 leading 5G countries saw an increase of 16.5 points (28.0%).
