# **Argentina Mobile Energy Storage Container 500kWh**

## Overview

---

Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

How many MW of battery energy storage will be deployed in Buenos Aires?

The initiative aims to deploy 500 MW of battery energy storage systems (BESS) in the Greater Buenos Aires Area (GBA), but the submitted capacity has far exceeded expectations—reaching a combined 1,347 MW.

How much will Buenos Aires invest in storage capacity?

The Argentinean authorities plan to install the new storage capacity in critical nodes of the metropolitan area of Buenos Aires, with an estimated investment of \$500 million and an execution period of between 12 and 18 months. From pv magazine Latam
