BAK Battery BMS

Overview

What is a battery health management system (BMS)?

Their performances depend heavily on internal and external conditions (aging, temperature, etc.). In order to keep track of these performances and battery states, an LIB pack is always equipped with a Battery Health Management system, part of the Battery Management System (BMS). The BMS is the main battery control system.

What products & services does Bak power offer?

BAK Power's products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used in new energy vehicles, consumer products, and back-up energy storage.

Why should you choose Bak power?

In addition, BAK Power's many excellent prismatic battery products have already achieved mass production, and power many electric passenger vehicles, electric trucks and electric buses. Featuring long cycle life, high energy density and customized dimensions.

Who is Shenzhen Bak technology?

Shenzhen BAK Technology Co., Ltd. company profile, Established in 2002, Manufacturer, Exporter, we has 100~199 employees, Annual sales of 15000000-20000000.

BMS hardware solutions High-level Safety Meeting functional safety ASIL C level requirements Complete high pressure safety management and comprehensive fault diagnosis coverage ...

BAK Battery Takes CIMAMotor On September 19, The 23rd China International Motorcycle Trade Exhibition (CIMAMotor) kicked off in ...

BAK New Power utilizes advanced lithium battery technologies including a welding-free process for battery pack assembly that enhances production efficiency and scalability.

Their proprietary ...

BAK New Power utilizes advanced lithium battery technologies including a welding-free process for battery pack assembly that enhances production ...

Power Battery R& D System As one of the pioneers of the NMC system vehicle battery, BAK Power currently has a complete battery R& D system, mastering core technologies from single ...

BAK Battery Takes CIMAMotor On September 19, The 23rd China International Motorcycle Trade Exhibition (CIMAMotor) kicked off in Chongqing. As a global leader in lithium-ion battery ...

Prismatic Battery Prismatic batteries are one of BAK Power's hit products. A single battery cell has a capacity of 300-5000mAh, and its shape and capacity can be customized according to ...

BAK Power's products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used in new energy vehicles, consumer ...

STSW-L9961BMS Firmware package, containing source code and binaries, with standalone firmware driver and application examples (*) * battery voltage, current and ...

BMS hardware solutions High-level Safety Meeting functional safety ASIL C level requirements Complete high pressure safety management and ...

Prismatic Battery Prismatic batteries are one of BAK Power's hit products. A single battery cell has a capacity of 300-5000mAh, and its shape and ...

BAKTH has always had its own fully automatic production line for BMS. Relying on 23 years of technical accumulation, our Company has a strong R& D team with solid technical capabilities. ...

BAK Technology Tailor-Made Battery Pack for Different Applications With 23 years fully experience, our partnership continues throughout your projects' life time with full technical ...

BAK Power's products and services include cylindrical, prismatic and polymer batteries, battery packaging and battery solutions, which are mainly used ...

BAK Technology Tailor-Made Battery Pack for Different Applications With 23 years fully experience, our partnership continues throughout your ...

Shenzhen BAK Technology Co., Ltd. founded in 2002, with more than 22 years experience in design and production of battery packs and PCB/BMS. BAKTH has its own R& D team, ...
