Battery BMS production in Slovakia

Overview

Where is the first battery cell production line in Slovakia?

The Slovak company InoBat has launched the first battery cell production line in Slovakia. It is situated right next to the research & development laboratories in Voderady. The maximum installed capacity of the line equals 50,000 battery cells produced annually.

When will the first Slovakian batteries be produced in Voderady?

Pilot production of the first Slovakian batteries in Voderady is scheduled for the Q1 of 2024. About InoBat.

Will INOBAT build a large battery factory in Slovakia?

Meanwhile, InoBat is also planning to build a large battery cell factory in Šurany, southern Slovakia, together with Chinese battery manufacturer Gotion High-Tech. The goal is an annual production capacity of 20 gigawatt-hours with the option of doubling it.

How many INOBAT operators are there in Slovakia?

In the first phase, the line will be operated by 41 InoBat operators, ensuring 24/7 operation of the battery formation and aging processes. The Slovak company InoBat has launched the first battery cell production line in Slovakia. It is situated right next to the research & development laboratories in Voderady.
