Is Rover lithium 40ah a good power station?

The Rover Lithium 40Ah Power Station's diminutive size belies its literal power and for those looking for a portable charging solution for their camping adventures, this unit is well worth a look. For those after more camp-side grunt, Companion's Rover 70Ah Power Station is another option, albeit with a seriously hefty jump in asking price.

Is companion a good portable power pack?

Companion's portable power pack offers great value, with straightforward operation, a robust build, and excellent performance, at a reasonable price for this market segment.

Does the Rover lithium 40ah need a recharge?

However, to my very pleasant surprise, the Rover Lithium 40Ah did not need a recharge until after night four, and once recharged (this did take a while, via the vehicle's 12V outlet; we got to 40 per cent power after seven hours of driving) it completed its fridge-powering duties until the end of the traverse.
