Black Mountain Solar Air Conditioning Clothing

Overview

What is Black Mountain?

Discover Black Mountain: durable and technical clothing and accessories for the whole family, made for every adventure from city life to the great outdoors.

Can solar-powered smart clothing be self-sustaining?

In a paper titled 'Self-sustaining personal all-day thermoregulatory clothing using only sunlight' published in the journal Science, researchers describe how they created solar-powered smart clothing using flexible solar cells and an electronic device.

What makes Black Mountain so special?

With Black Mountain, every day outside is an adventure. Our technical, durable clothing is made to keep up with winter — from sledding and snowball fights to long walks under the falling snow. Warm, breathable fabrics that keep the whole family comfortable, even below zero.

Can solar panels be used in clothing?

Critics argue that the integration of solar panels into clothing may compromise the overall design and comfort. Additionally, debates exist regarding the efficiency of solar textiles and the need for further advancements to match the performance of traditional solar panels. The future of solar textiles holds immense potential.
