

**NKOSITHANDILEB SOLAR**

# **Boston Outdoor Power solar container lithium battery Factory**

## Overview

---

Will Massachusetts help Boston-power build a new energy storage facility?

Enabling energy storage to continue to flourish in Massachusetts, state officials are working closely with Boston-Power to pursue state and federal financial incentives that will help the company to fulfill its plans of building the Auburn facility.

Could Boston-area battery companies power electric cars and smart grids?

Formed out of research at MIT, Worcester Polytechnic Institute and other nearby research institutions, these companies are developing technology that could power electric vehicles and smart grids of the future. Venture capital firms are betting big on Boston-area battery companies, too.

Where is the world's most advanced battery manufacturing facility located?

Boston-Power, Inc. announced that the company is working to build what it describes as one of the world's most advanced battery manufacturing facilities in Auburn, Massachusetts.

Who makes a solid-state battery?

Factorial Energy manufactures solid-state batteries that allow electric vehicles to drive 50 percent longer than conventional lithium-ion batteries, according to the company. The Woburn-based company launched from stealth last year and has raised \$240 million, including a \$200 million Series D in January.
