

**NKOSITHANDILEB SOLAR**

# **Budapest Energy Storage solar container lithium battery Assembly Company**

## Overview

---

Installed by Switzerland-based MET Group, the project is powered by Tesla Megapack 2 units, supplied by Huawei Technologies' battery units, and built by Forest-Vill and follows a smaller 4 MW / 8 MWh pilot at the same site in 2022. Where is the largest battery energy storage system in Hungary?

Image: MET Group. IPP MET Group has put a 40M/80MWh BESS in Hungary into commercial operation, deployed using technology from Huawei. The 2-hour battery energy storage system (BESS) is the largest in Hungary, Switzerland-headquartered MET Group said, deployed at its Dunamenti thermal power plant in Százhalombatta, near Budapest.

Where is Hungary's largest battery located?

MET Group has switched on Hungary's largest battery, a 40 MW/80 MWh system, at the site of a power station near Budapest. Swiss-based energy company MET Group has officially inaugurated Hungary's largest standalone battery energy storage system (BESS) at its Dunamenti Power Station in Százhalombatta, located close to Budapest.

Will Hungary's new battery energy storage system help Green the grid?

The new facility supports a growing push to green Hungary's power grid. Hungary has just switched on its largest battery energy storage system (BESS) to date, stepping up its role in Central Europe's growing grid-scale energy transition.

Is Hungary stocking up on battery backup?

Hungary isn't alone in stocking up on battery backup as it charts its green energy path. In neighbouring Bulgaria, a massive 124 MW/496 MWh battery energy storage system went live in Lovech earlier this year.
