

China Communications and Huawei jointly build 5G base stations

Overview

Where are 5G base stations located in China?

At the Great Wall scenic area, the Beijing Yanqing District Government and China Unicom Beijing have jointly deployed 10-gigabit 5G-Advanced base stations at scale. This offers uninterrupted network coverage both on the ground and in low-altitude (below 300 meters) airspace.

How big is Huawei's 5G network in Beijing?

According to Huawei, this large-scale commercial three component carrier (3CC) network covers over 10 million people in Beijing. The deployment aims to ensure comprehensive 5G coverage and extends 85% 5G-Advanced coverage within Beijing's 4th Ring Road and the Municipal Administrative Center.

Which 5G networks are being deployed at the Workers' Stadium?

China Unicom Beijing, Sinobo, GTVerse, and Huawei have created a world-leading integrated 5G-Advanced network at the Workers' Stadium. A large number of 5G-Advanced 3CC sites have been deployed both inside and outside the stadium, enabling the 10-gigabit 5G-Advanced network to support the widest frequency range anywhere in the world.

What is China Unicom & Huawei '5G capital on the way'?

[Beijing, China, Novem] China Unicom Beijing and Huawei held an event, "5G Capital on the Way - Lighting Up Beijing with 5G-Advanced," to announce their deployment of the world's first large-scale integrated 5G-Advanced intelligent network.
