# China outdoor solar energy prices

## Overview

---

How much does a solar system cost in China?

Component Checklist: Solar systems in China offer exceptional value at 40-60% lower costs than Western markets. Quality systems start at ¥15,000 (\$2,100) with 6-8 year payback periods. This article will take you through solar system price in china: how much does it really cost, but the quality varies greatly by supplier and system type.

How much does a 5kw Solar System cost in China?

Prices have dropped significantly, but quality varies widely across suppliers and system types. A complete 5kW solar system in China costs ¥15,000-¥30,000 (\$2,100-\$4,200), with Tier-1 panels from Longi or Jinko at ¥0.9-¥1.3 (\$0.13-\$0.18) per watt. Installation adds 10-20% to the total price.

How much money does China spend on solar power in 2021?

China's budget for renewable energy subsidies was increased to 6 billion yuan for 2021, with solar power receiving 3.38 billion yuan. These grants are set to be distributed to 14 provinces, with Inner Mongolia receiving the majority of the funding with 5.10 billion yuan. The price guarantee ended in June 2025.

What is the future of solar energy in China?

Solar photovoltaic retained 99.5% of the Chinese solar energy market in 2024. Within PV, N-type TOPCon, HJT, and back-contact cells reached 70% shipment share by the end of 2024 as conversion efficiency climbed to 25.4% record. Higher power density lowers balance-of-system costs, sustaining price premiums.
