# Constant output 5v solar container lithium battery pack

## Overview

---

How many stacks does a 5MWh battery container have?

Outside View of 5MWh Battery Container Standard 20 -foot battery container has two stacks, one side O&M, every container has two out for one PCS. Fig5. Electric Wiring Diagram of Battery Container (for reference) NO. Fig5. BMS Architecture Diagram(For reference).

Does a 5MWh battery container have two clusters?

Battery Rack (Two battery clusters) NO. Fig4. Outside View of 5MWh Battery Container Standard 20 -foot battery container has two stacks, one side O&M, every container has two out for one PCS. Fig5.

Does a battery pack put out 5V?

Yes, it puts out 5V no matter what the main output voltage is set to, essentially turning the pack in to a 2-voltage source. There is an audio alarm that sounds when the battery is close to being empty. It sounds when the battery is 3% to 5% full and will sound until the battery shuts off.

How many cells are in a battery pack?

The battery Pack consists of 104 single cells, the specification is 1P104S, the power is 104.499kWh, and the nominal voltage is 332.8V. Fig2. Battery Pack NO. Each rack of batteries consists of 4 modules. Fig3. Battery Rack (Two battery clusters) NO. Fig4. Outside View of 5MWh Battery Container
