Construction of a large energy storage power station in Port Moresby

Overview

What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected thermal generation in the country. Replacing heavy fuel oil and diesel, the gas-fired power plant also brings a material reduction in the environmental impact from power generation in PNG.

Will niupower Port Moresby power station save png?

“ NiuPower is pleased and proud to have developed PNG’s first ever dedicated grid-connected gas fired power station. Our customer, PNG Power Limited, are on record as saying that the NiuPower Port Moresby Power Station coming online will save them, and thus the nation, up to K100 million annually.

How much money does Papua New Guinea need to build a fuel storage facility?

The United States has awarded a \$400 million contract, equivalent to 1.6 billion Kina, for the construction of a large fuel storage facility near Port Moresby Harbor in Papua New Guinea. This initiative, managed by the Department of Defense, will provide storage for over 1.6 million barrels of fuel.

What is the Papua New Guinea fuel storage initiative?

This initiative, managed by the Department of Defense, will provide storage for over 1.6 million barrels of fuel. The development is a response to a request from the Government of Papua New Guinea to support its fuel storage requirements and diversify the types of fuel available in the market.
