Copenhagen Power Plant Energy Storage Project

ESS

40.96kWh

61.44kWh

Overview

Does European energy have a battery storage project in Denmark?

European Energy breaks ground on battery storage in Denmark together with Kragerup Estate. Project to provide operational experience for European Energy in integration of battery solutions. Copenhagen, Denmark, 20th of January 2025 - European Energy has started on its first large-scale battery storage project.

What is European energy's new battery storage project?

This is done in collaboration with Kragerup Estate. This is the first battery storage project that European Energy has undertaken in Denmark, and it will provide valuable operational experience in integrating battery solutions with the grid for the company.

Who will supply Copenhagen Energy's 132 MWh Everspring battery energy storage system?

Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will be supplied by Huawei Digital Power. Image: Huawei Digital Power. Copenhagen Energy's 132 MWh Everspring battery energy storage system (BESS) portfolio will source its technology from Huawei Digital Power.

What will Copenhagen energy do in 2024?

Copenhagen Energy has been developing the projects since the start of 2024. It will now proceed work with the procurement of long-lead components such as batteries, inverters, and transformers, after which it will choose engineering, procurement and construction (EPC) contractors and key suppliers.
