

NKOSITHANDILEB SOLAR

Copenhagen solar energy storage module manufacturer

Overview

Where is Nordic solar launching its first battery energy storage system?

Yesterday, Nordic Solar officially inaugurated its first battery energy storage system (BESS) park in Denmark. The facility, located in Borup in the Municipality of Hillerød, marks a great milestone in the company's strategy to integrate battery storage into its portfolio of solar energy projects across Europe.

What is the most beautiful PV system in Copenhagen?

UN city complex, hailed as a Star in Copenhagen's harbor was completed in 2014. We're proud to deliver the PV systems installed on the top of building. This project was awarded at the Intersolar 2014 as "the most beautiful PV system since 2002".

Who are DSE solar components distributors?

DSE is the official distributor for some of the well known solar components producers like Fronius, ABB, Steca, MorningStar, Grundfoss, Victron Energy, Hoppecke etc. Based on our in-depth PV technology knowledge and insight in the solar components market, we are capable of selecting the right quality products without any compromise.

What is a battery storage project?

Our goal is to build an integrated business where technology, power trading, and development work together to create long-term value. Initiating a battery storage project involves ensuring proximity to the grid's transmission level, with a screening process initiated with grid operators to assess available capacity.
