# **Cost of 40-foot Energy Storage Containers Used at Russian Airports**

## Overview

---

How much does a 40ft container cost?

Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025. Between now and the end of the year, container shipping prices will likely remain soft particularly if the current ceasefire between Israel and Palestine enables more shipping traffic to flow through the Suez canal.

How much does a 20 foot shipping container cost?

A new 20-foot shipping container can cost anywhere between \$2,000 and \$3,000. The price depends on factors like the manufacturer, condition of the container, and location. What is the cost of shipping a container per kilogram?

The sea freight rates per kg typically range from \$1 to \$4 per kilogram, depending on the distance and type of service.

What is a 40-foot shipping container?

A 40-foot shipping container is a large, standard-sized container used for transporting goods. It measures 40 feet in length and is typically used for international shipping.

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.
