# Cost of a 10kW collapsible container used in a US mine

## Overview

---

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

How many containers can a collapsecon hold?

COLLAPSECON's innovative and fully automated design allows up to 4 containers to be collapsed and combined, giving them a fully laden weight and enabling them to be transported anywhere on a ship. 1/6 COLLAPSECON collapses horizontally, ensuring the container maintains its structural rigidity in any form.

How much do shipping containers cost?

There are several options available: Cargo-worthy 20ft dry containers. Prices range from \$500 to \$3,000. Cargo-worthy 40ft dry containers. Expect to pay between \$1,000 and \$3,500. 40ft high cube (HC) cargo-worthy containers. Shell out between \$1,500 and \$4,000. The condition of the container greatly influences how much shipping containers cost.

How much does a 40 ft container cost?

Now, if you need a brand new 40ft container, you may part with \$1,500 to \$4,000. The 40ft high cube container will set you back anywhere from \$2,000 to \$6,000. A new container, with its fresh-off-the-factory-floor feel, naturally costs more than its seasoned counterparts.
