Cyprus s Highly Efficient Collaboration with Folding Containers

Overview

What is a collapsible shipping container?

Shippers are demanding improved efficiencies and sustainability throughout their supply chains. COLLAPSECON is the collapsible shipping container pioneering the future of global trade. It's practical and rigid design saves on space, cost and handling, and helps to significantly reduce industry emissions.

What is a 4 fold container stacked?

4 folded 4FOLD containers stacked have the same dimensions as 1 container, enabling the reduction of transport movements up to 75%. An increase of the shipping lines' profit margin of 600% is possible, corresponding to savings up to 25% on the operational costs and 27% on the total CO2 emissions of container transport at sea.

What is maritime world's first ISO-certified five-in-one shipping container?

posted by AJOT | Oct 24 2024 at 10:11 AM | Maritime World's first ISO-certified five-in-one shipping container set to improve the transportation and logistics industries' efficiency and sustainability.

What is a 4fold foldable container?

Due to the global imbalance of import/export ca. €25 billion a year is spent on repositioning empty containers and unnecessary emissions of CO2, NOx and PM are generated. The technical solution proposed by HCI is the 4FOLD foldable container. This concept is IP protected by HCI by 8 patents.
