How much does photovoltaic cost in China?

The data is categorized under China Premium Database's Energy Sector – Table CN.RBN: Photovoltaic: Price. CN: Price: Photovoltaic Module: 182 Single Crystal data was reported at 0.660 RMB/W in Apr 2025. This records an increase from the previous number of 0.650 RMB/W for Mar 2025.

Does commercial solar cost a lot?

The solar price for commercial projects varies based on system size, location, energy needs, and available incentives. Unlike residential solar, commercial solar pricing benefits from economies of scale, resulting in a lower levelized cost of electricity (LCOE).

How is solar price measured?

The solar price for utility-scale projects is measured using LCOE, which typically has the lowest LCOE among all solar PV sectors. As solar prices continue to decline, utility solar PV plays a key role in the global energy transition, supporting large-scale renewable energy adoption.
