**Democratic Congo energy
storage power supply
customization company**

Overview

Is the Democratic Republic of the Congo an energy exporter?

One of the Inga dams, a major source of hydroelectricity in the Democratic Republic of the Congo. The Democratic Republic of the Congo was a net energy exporter in 2008. Most energy was consumed domestically in 2008. According to the IEA statistics the energy export was in 2008 small and less than from the Republic of Congo.

Who is Congo energy?

Congo Energy is a Congolese company which is contributing to the recovery and development of the energy sector in the Democratic Republic of the Congo (DRC). Congo Energy offers products that reduce consumption while optimising the quality of installations. The company focuses on 4 areas: Electrical infrastructure for industries.

What products does Congo energy offer?

Congo Energy supplies a wide range of products tailored to the specific requirements of its customers' sectors of activity. From industrial lighting to street lamps, automation systems and energy management, Congo Energy offers reliable, superior quality products, carefully selected from its partners.

Why should you choose Congo energy?

From industrial lighting to street lamps, automation systems and energy management, Congo Energy offers reliable, superior quality products, carefully selected from its partners. Exclusive distributor of PRAMAC products in the DRC, Congo Energy offers a wide range of reliable and efficient generator sets.
