## Overview

---

What is the Timor-Leste solar power project?

The Project involves the construction and 25-year operation of a new power plant in Manatuto, Timor-Leste, comprising a 72 MW solar power plant co-located with a 36 MW/36 MWh battery energy storage system. This will be the country's first full-scale renewable energy IPP project.

Who bids for solar IPP project in Timor-Leste?

For Timor-Leste, bidders are typically from legacy countries such as Indonesia, Portugal and People's Republic of China. For the Solar IPP project, Government of Timor-Leste represented by the Ministry of Finance has provided backstop guarantee for EDTL obligations under the Implementation Agreement.

Does Timor-Leste rely on imported diesel fuel?

Currently, Timor-Leste relies almost entirely on imported diesel fuel for its power generation, which poses significant challenges in terms of fiscal burden and greenhouse gas emissions.

Does Timor-Leste provide backstop guarantee for EDTL obligations?

For the Solar IPP project, Government of Timor-Leste represented by the Ministry of Finance has provided backstop guarantee for EDTL obligations under the Implementation Agreement. Special Investment Agreement, if concluded could allow the winning bidder a leasing of the Site at a concessional rate and other benefits.
