Overview

When was the School of Energy & Power Engineering founded?

Established in Shanghai in 1921, and relocated to Xi'an in 1956, the School of Energy and Power Engineering initiated engineering specialties such as boilers, steam turbines, automobile manufacturing, compressors, and refrigeration and cryogenics.

What services does Shanghai University of electric power provide?

You can visit “Our Services” page right here to get known with the services we provide. Shanghai University of Electric Power recruits 120-160 students for scholarships every year. Scholarships for Bachelor, Master and Doctoral Degree as well as for language courses are provided.

How many science and Technology Awards does Shanghai University of electric power have?

The university is equipped with 17 scientific research platforms above ministerial and provincial levels and specialises in energy and electricity research. It has won 78 science and technology awards above ministerial and provincial levels, three of which were at national level. Shanghai University of Electric Power.

What happened to Shanghai Electric Energy Academy (SHUEP)?

The growth of ShUEP has undergone several significant changes, it was originally called Shanghai electric energy academy, then it was renamed Shanghai electric energy industry academy and after some time it was recognized as Shanghai electric energy technical college.
