Energy company uses 100kW off-grid solar container in Oman

Overview

Why is solar energy important for Oman?

Solar energy is a vital and strategic solution for the provision of electric power in the Sultanate of Oman, given its vast unused land and available solar energy resources. This makes Oman an excellent potential candidate for solar energy development and deployment.

Who is Oman solar systems?

Systems has been delivered to Telecom, Oil & Gas, Ministry and Defense for different applications. You are guaranteed to get the energy system that's been chosen and installed by the real experts. Part of Al Bahja Group, established in 1947. Mainly in manufacturing and allied activities. OMAN SOLAR SYSTEMS CO. LLC OMAN SOLAR SYSTEMS CO. LLC.

Can Oman's power sector regulate rooftop solar panels?

The Authority for Electricity Regulation Oman (AER) – Oman's power sector regulator, is taking steps to pave the way for homeowners to install rooftop solar panels. Any surplus electricity generated can be sent back into the national grid.

Should energy funds invest in a 2/3 megawatt project in Oman?

However, energy funds have shown no interest in local projects lower than 2/3 megawatts, as the rate of return is lower and risk is higher in Oman.
