Energy storage charging pile foreign trade wholesale

Overview

Does China's e-commerce platform have a charging pile section?

Data of China's largest cross-board e-commerce platform, Alibaba, shows that in the first week of March 2023, overseas demand for charging piles on its international platform rose by 218 percent compared to 2022. In response, Alibaba set up a dedicated section for charging piles, with 295 domestic companies joining.

How much does a charging pile cost in China?

Overseas charging piles of the same power are priced several times higher than those in China. For instance, a 120 kilowatts DC charging pile overseas costs around 464,000 yuan (\$64,000), significantly more than the 30,000 to 50,000 yuan price range in China, according to a report of Industrial Securities.

Why are Chinese charging pile companies so popular?

Chinese charging pile companies have advantages in the supply chain, technology innovation and cost, leading to high demand in overseas markets, industry experts said. With emissions regulations tightening, the transition to vehicle electrification is unstoppable worldwide.

What are the challenges in exporting charging pile products?

Zhang pointed out challenges in exporting charging pile products, such as policy restrictions similar to those for electric vehicles. Additionally, the need for localized services poses challenges, given the dispersed customer base.
