

European battery cabinet customization

System Topology

Overview

Why should you choose a battery cabinet?

Our battery cabinets are sophisticated and offer modular solutions that can withstand even temperatures and earthquakes when it matters. VENTILATION: Our cabinets are specially designed for the use of stationary batteries. One important factor here is ventilation, both for cooling and for the removal of hydrogen (H₂).

Why should you choose energy storage cabinets?

This ensures that energy storage cabinets can provide a complete solution in emergency situations such as fires. To accommodate different climates, we provide professional recommendations based on customer usage scenarios and requirements.

What are Arimon battery cabinets?

Arimon uninterruptible power supply (UPS) backup battery cabinets are available for either front access batteries or top terminal (monobloc) batteries. All battery cabinets are constructed from heavy gauge steel with a durable welded frame and acid resistant powder coated finish available in a wide range of colors.
