## Overview

---

What is the cost of a 33kV switchgear?

The cost of a 33kV switchgear is between 250 to 20000. The price varies by different parameters. Stay updated to what's new and popular on the market.

What is a medium voltage switchgear?

Medium voltage electrical power distribution from generating stations to industries and consumers is divided into two main parts: primary and secondary distribution. ABB's medium voltage switchgear offering comprises air - insulated and gas - insulated medium voltage switchgear for primary and secondary electrical power distribution.

What is ABB medium voltage switchgear?

ABB's medium voltage switchgear offering comprises air - insulated and gas - insulated medium voltage switchgear for primary and secondary electrical power distribution. Primary distribution. Connecting and protecting high transmission networks to medium voltage distribution. Secondary distribution.

Are ABB switchgear products ANSI certified?

Our medium voltage switchgear products comply with international standards such as IEC 62271, GOST, GB/DL. They are also certified by leading industry bodies to ensure the highest levels of safety and performance. ABB also offers medium voltage switchgear products for ANSI standards.
