## Overview

---

How much does solar cost in Chicago IL?

As of July 2024, the average solar panel cost in Chicago, IL is \$2.93/W. If you install a 5 kW system it will cost you between \$12,441 to \$16,831, with an average cost of \$14,636. What incentives are available for solar in Chicago, IL?

.

How much does a 5 kW solar system cost in Chicago?

While a 5 kW system will only cost you \$14,636 in Chicago, IL, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Chicago, IL?

.

Are solar panels worth it in Chicago?

Solar panels are worth it in most areas, including Chicago, IL. Certain factors, including the cost of electricity, incentives, climate, and the angle at which the sun hits your roof impact how quickly you break even on your investment relative to other areas around the U.S.

Can I get a solar tax credit in Chicago IL?

As long as your federal tax bill is high enough, you can take advantage of the federal tax credit in Chicago, IL. This incentive allows you to apply 30% of your solar installation and equipment costs toward your federal tax bill. If the amount exceeds your tax bill, you can roll over the remaining credit to the following year.
