Foreign trade promotion of energy storage projects

Overview

Which international trade issues will remain a concern for energy storage projects?

Two major areas of international trade that will remain causes of concern for energy storage projects are the application of tariffs and supply chain integrity.

How can China improve international cooperation in the energy storage sector?

To beef up international cooperation in the new-type energy storage sector, China will work to incorporate collaboration in the field into international cooperation mechanisms and frameworks such as the Belt and Road Initiative and BRICS and promote mutually beneficial cooperation on industrial and supply chains.

How will China promote the new-type energy storage manufacturing sector?

BEIJING, Feb. 17 -- Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of emerging industries and the country's modern industrial system.

What drives energy storage project development?

Globally, energy storage project development is increasingly driven by the utility-scale segment, with mandates and targeted auctions driving gigawatt-hour projects in markets like China, Saudi Arabia, South Africa, Australia and Chile.
