# **Georgetown 24-hour solar water pump**

## Overview

---

What is a solar powered water pump?

A solar powered water pump is an eco-friendly, off-grid solution that uses solar energy to move water from wells, rivers, ponds, or tanks—without needing electricity or fuel. Perfect for farms, homes, and remote areas, these pumps are powered by photovoltaic panels and come in both surface and submersible options.

Is the Aquajet 24V solar water pump a good choice?

Over the past 15 years, we've learned dry-run protection is the only way to build a water pump for long lasting use and durability. The Aquajet 24V Solar Water Fountain Kit Night and Day is the perfect pump for most applications. It is completely Solar so no electric to worry about.

Are solar-powered water pumps eco-friendly?

Whether you are looking for the most environmentally friendly pumping solution on the market or want to give your garden a plus of beauty and elegance, a solar-powered water pump is what you should look for. It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use.

Who makes Aquajet 24V pro water pump kits?

Bring your backyard to life with the exclusive Aquajet 24V Pro solar pump kit made by Silicon Solar. The proprietary design let's you stay in control of your water pump system. Each kit includes integrated battery and control electronics to keep your pump running when the sun goes down or when you have cloudy weather. Trusted since 1999.
