# **Gfci circuit breaker in China in Singapore**

## Overview

---

What is a GFCI circuit breaker?

A GFCI circuit breaker, also known as a GFCI breaker, is a type of circuit breaker that provides Ground Fault Circuit Interrupter (GFCI) protection. It is often used as a replacement for standard circuit breakers and protects all receptacles on that individual circuit.

How do GFCI circuit interrupters work?

Ground fault circuit interrupters (GFCI) guard against accidental electrocution by monitoring the current traveling to and from an electrical load. A difference in current greater than 5 mA triggers a manually resettable electrical disconnect which quickly isolates power from the load.

Where can I buy GFCI in Singapore?

Find a huge range of GFCI at element14 Singapore. We stock a large selection of GFCI, including new and most popular products from the world's top manufacturers including: Molex & Wago Information unavailable. Please try again later. Information unavailable. Please try again later. More Pricing. Information unavailable. Please try again later.

Where GFCI & AFCI breakers are installed?

GFCI is often installed at the power outlets in wet areas. On the other hand, AFCI breakers are installed at the main electrical panel.
