**Grid energy storage project
cooperation**

Overview

Does Tesla have a grid-side energy storage project in China?

US electric car maker Tesla signed an agreement on Friday for its first grid-side energy storage project in the Chinese mainland, according to a statement the company sent to the Global Times on Friday.

How big is BYD energy storage & Saudi Electricity Company?

BYD Energy Storage and Saudi Electricity Company successfully signed the world's largest grid-scale energy storage projects contracts with a capacity of 12.5GWh at the time. Combined with the previously delivered 2.6GWh project, the total cooperation now has amounted to a massive 15.1GWh of projects.

What is the energy storage plan?

The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, and improving standardization. It also emphasized talent development and enhancing international cooperation in the sector.

What is BYD energy storage & SEC doing?

A milestone in global energy storage BYD Energy Storage and SEC have signed a landmark contract for what is now the world's largest grid-scale energy storage project, with an initial capacity of 12.5GWh. Combined with a previously delivered 2.6GWh project, the total collaboration has reached a record-breaking 15.1GWh.
