Guinea Base Stations and Communications

Overview

Does Spacecom provide satellite coverage to Guinea?

Spacecom is proud to provide satellite coverage to Guinea via our AMOS satellite fleet. As an innovative telecom satellite company, we offer tailored, end-to-end telecommunication solutions to Guinea's media and broadband industries with innovative broadcast and broadband satellite service technologies allowing for cross-region connectivity.

Which satellites can be brought to Guinea?

Any one (or more) of these services can be brought to Guinea using either the AMOS 7 or AMOS 17 satellites. Feel free to explore our Guinea satellite map to get more detailed geographical and regional information. For more information, please contact our Sales and Marketing team.

Why is Guinea launching a satellite project?

Additionally, the Minister added that the government has prioritised advancing the country's digital economy, with high-speed internet connectivity at the forefront. This satellite project would complement other technologies like fibre optics to help Guinea push for digital sovereignty and modernise its telecommunications infrastructure.

Is ubiquitous global communication possible in Equatorial Guinea?

Enabling Ubiquitous Global Communications in Equatorial Guinea Via the Transformation of Getesa. Am. J. Eng. Technol.
