Hanoi Solar Energy Storage Project

Overview

Can energy storage help Vietnam meet climate goals?

Co-funded by a grant from U.S. Mission Vietnam, the pilot project will demonstrate how energy storage can help Vietnam integrate more renewable energy into its power system to meet ambitious climate goals.

Can battery energy storage be commercially viable in Vietnam?

The BESS project aims to demonstrate the commercial viability of battery energy storage in Vietnam and showcase the practical benefits of renewable energy, including its reliability and efficiency. It also seeks to help Vietnam meet its climate action targets.

Can battery energy storage systems stabilize Vietnam's grid?

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and accelerate the energy transition.

How is Vietnam advancing its energy infrastructure towards an energy-resilient future?

Vietnam is advancing its energy infrastructure towards a greener, more just, and energy-efficient future, simultaneously providing a valuable model inspiring the global drive towards an energy-resilient future.

Vietnam is advancing its energy infrastructure towards a greener, more just, and energy-efficient future, simultaneously providing a valuable model inspiring the global drive towards an energy-resilient future.

Sunita Dubey (left) visits the Vietnam Electricity (EVN) 50MW pilot BESS project with Asian Development Bank senior energy ...

Vietnam sharpened its national energy storage roadmap this week as government leaders and industrial operators aligned on BESS deployment.

In December 2025, GSL ENERGY completed the delivery and deployment of a 28.68 kWh home energy storage system in Vietnam. The project utilizes two parallel ...

The joint venture is collaborating with Honeywell to integrate Vietnam's first grid-connected battery energy storage system (BESS) project in the 50 MWp Khanh Hoa Solar

...

Dec. 20, 2024 Marubeni Corporation Marubeni Corporation, through its wholly-owned subsidiary Marubeni Green Power Vietnam Co., Ltd, has commenced a battery energy ...

Vietnam's direct power purchase agreement (DPPA) framework is gaining momentum, with green energy projects increasingly taking shape under the model. VinEnerg, ...

Why the Hanoi Energy Storage Station Matters Imagine a bustling city like Hanoi, where power demand grows by 8% annually. Now, picture a solution that stores excess solar energy during ...

EVN's 50 MW Battery Energy Storage Systems (BESS) pilot project, in collaboration with ADB and GEAPP, aims for 300 MW by 2030. ...

The joint venture is collaborating with Honeywell to integrate Vietnam's first grid-connected battery energy storage system (BESS) ...

Dec. 20, 2024 Marubeni Corporation Marubeni Corporation, through its wholly-owned subsidiary Marubeni Green Power Vietnam Co., ...

One of the key highlights of Vietnam's revised Power Development Plan VIII (PDP8) is the significant increase in the targets for Battery Energy Storage Systems (BESS).

Sunita Dubey (left) visits the Vietnam Electricity (EVN) 50MW pilot BESS project with Asian Development Bank senior energy economist Hyunjung Lee. Image; Global Energy ...

...

EVN's 50 MW Battery Energy Storage Systems (BESS) pilot project, in collaboration with ADB and GEAPP, aims for 300 MW by 2030. Vietnam is the fastest-growing ...

Hanoi's rooftop solar program is set to boost the city's energy security, reduce electricity costs for businesses and residents, and contribute to the national goal of increasing ...
