# **How is the development of Albania s telecommunications industry**

## Overview

---

What is the future of Albania's small telecom market?

Albania's small telecom market has experienced some significant changes in recent years. Vodafone Albania in early 2021 acquired the ISP ABCom, and committed to invest €100 million to upgrade fixed-line infrastructure to support broadband services.

Which telecommunication companies are based in Albania?

In Albania, there are Vodafone, One Telecommunications, and ALBtelecom that operate as mobile telecommunication companies. The telecommunication regulatory authority in Albania is the Electronic and Postal Communication Authority. Vodafone was launched in 2001 and is headquartered in Tirana, where it began providing GSM services in Albania in April 2001.

How many telecommunication operators are there in Albania?

Currently, there are three operators in Albania: Vodafone, One Telecommunications, and ALBtelecom Mobile. Albania has 3.66 million subscribers as reported in Q1 2021, with 2.49 million of these being active users. The telecommunication regulatory authority in Albania is the Electronic and Postal Communication Authority.

Why did Albania decide to start a business?

Albania made starting a business easier by consolidating tax, health insurance and labor registration into a single application, allowing online publication of the incorporation notice, and reducing the registration cost. Albania improved access to credit information by establishing its first credit bureau.
