How much does a solar inverter cost?

The inverter is a crucial part of your solar investment, whether you're on the grid or building an off-grid solar system. It connects your solar photovoltaic panels to your home and the grid, determining whether your energy is usable, storable, or wasted. Expect to pay \$1,000 to \$3,500, depending on type, size, and features.

What is the cost of a 24V 1200W inverter?

A 24v 1200w inverter costs approximately R10 000. This model can power multiple devices such as a television, a computer, a gaming console, an internet router, and one or two lights.

How much does a small inverter system cost?

A small inverter system with one battery, costing around R6 300, can power a laptop, television, or internet router, and one light for about three hours during load shedding.
