How much does a Zimbabwe energy storage power supply cost

Overview

How much does electricity cost in Zimbabwe?

The price of electricity for households in Zimbabwe is ZWD 63.994 per kWh or USD 0.064 per kWh (September 2023). This includes all components of the electricity bill such as the cost of power, distribution, and taxes.

How much electricity does Zimbabwe import?

Zimbabwe imported 2,220,000 MWh of electricity in 2016, covering 31% of its annual consumption needs. This was part of Zimbabwe's electricity generation and consumption statistics, which also include exports, nuclear, renewable, and non-renewable energy sources.

Why does Zimbabwe have a power supply deficit?

The weak financial state of Zimbabwe's electricity companies is the most significant issue driving the country's power supply deficits and slowing the expansion of universal access to electricity services. Energy tariffs do not reflect the financial costs of energy generation and distribution, leading to significant losses for power companies.

Who owns the electricity supply industry in Zimbabwe?

The electricity supply industry (ESI) in Zimbabwe is dominated by government owned power entities. The main entities are the Zimbabwe Power Company (ZPC) and the Zimbabwe Electricity Transmission and Distribution Company (ZETDC).
