Huawei Abu Dhabi Energy Storage Project

Overview

Why is UAE launching a solar power and battery storage project?

The launch of the solar power and battery storage project marks a pivotal moment in the clean energy transformation, allowing renewable energy to be dispatched 24 hours a day, seven days a week, reaffirming the UAE's position as a global pioneer in renewable energy deployment.

Who is building the world's largest solar and battery storage project?

The United Arab Emirates is building the world's largest solar and battery storage project that will dispatch clean energy 24/7. Emirati Renewable energy company Masdar (Abu Dhabi Future Energy Company) and Emirates Water and Electricity Company (EWEC) are developing the trailblazing solar and battery storage project.

Will Dubai's new solar power plant be able to operate 24/7?

The facility will be capable of operating 24/7 on renewable energy. This will also be the world's first 24/7 solar PV, battery storage gigascale project, according to Abu Dhabi Future Energy Company (Masdar) and Emirates Water and Electricity Company (EWEC), which are part of the project.

What is Abu Dhabi Sustainability Week 2025?

The announcement came on the sidelines of the Opening Ceremony of Abu Dhabi Sustainability Week (ADSW) 2025. Located in Al Azeelah, Abu Dhabi, the innovative project will be the world's largest round-the-clock combined solar power and Battery Energy Storage System (BESS), delivering reliable renewable energy 24 hours a day.
